

The Parents Group has been a fantastic and positive experience for myself and my two children.

It is a small group where we enjoy tea/coffee/biscuits before discussing events that have happened in the week. You get to share lots of different experiences and gain lots of information about how to deal with many situations. It enables you to be able to discuss your child's needs in a relaxed and informal atmosphere.

The Parents Group promotes positive parenting from a play perspective. This principle is followed on a 10 week course which the children attend for a short while each week to take part in activities on a one-to-one with their parents. The children love the individual attention they get when they attend the group. My children have really enjoyed it and they ask every day if Parents Group is on today.

Parent Group creates a good link between yourself and school as you are closely monitoring good behaviour.

I really hope this encourages more parents to attend the group and enjoy this positive experience.
